

A large, detailed dinosaur skeleton is the central focus, standing on a dark, rocky base. The skeleton is positioned in a spacious, modern museum hall. The floor is covered in a vibrant, multi-colored geometric pattern of interlocking shapes in shades of blue, teal, brown, and grey. To the left, a staircase with a metal railing leads up to a second level. The ceiling is high with exposed structural elements and several circular recessed lights. In the background, there are glass walls and a yellow caution sign on the floor. The overall atmosphere is one of a contemporary educational institution.

## Floors crafted for **Education**

**Amtico Signature Collection: Abstract LVT and Wood LVT** - Various Colorways, **ColorSpec Stair System: ColorSpec Rubber Stair Treads** - Alpine Glow, **Custom Modular Carpet**

## Case Study:

# Ron Clark Academy

An innovative middle school needed to expand its facilities. Mannington Commercial's complete portfolio of flooring solutions ensured optimal design and performance in the many functional spaces of the school—classrooms, dining areas, hallways, bookstores, locker rooms and more.

## Challenge

The Ron Clark Academy in Atlanta, GA, is a one-of-a-kind middle school. Bringing 5th through 8th graders together with dynamic teachers and innovative instruction, RCA creates a vibrant and imaginative learning environment—as well as a platform for teacher instruction, through its educator training program. In order to provide professional development to even more educators, the school's founders knew that they needed to expand their facilities.

## Solution

RCA drew confidence from Mannington's ability to deliver both hard and soft surfaces for the entire campus, with all products performing to the highest standards—including modular carpet, LVT, rubber tile, stairway systems and wall base. The design team even collaborated with a group of 7th graders to create custom carpet patterns for classrooms. As safety and performance were also high priorities, the flooring provides slip-resistance while resisting the wear and tear of hundreds of footsteps every day.

## Benefits

- > Coordinating hard surface and carpet in engaging styles bring comfort and creativity
- > LVT with Quantum Guard® technology offers superior durability and ease of cleaning
- > Carpet with Antron® fiber gives unbeatable performance and stain resistance
- > Personal service ensures that the flooring meets all of the goals of a project
